Manufactured by Sandrine Pagny

France, 2017

Porcelain and glaze

### **Details**

Unique piece

### **About**

Sandrine Pagny works at a ceramic workshop in Paris, here she often starts by working on wheel throwing vases and vessels that she later continues to mold by hand. Pigments and glaze play an important role on bringing character to her pieces. She has a simple and elegant focus, meeting at a middle point between experimentation and traditional pottery.
