Concept

Nebil Zaman used his background in traditional woodworking and furniture design, fusing it with his fascination and interest for architecture, art and technology to inform his works. His latest series produced specially for Side Gallery are two low tables made with 2 mm fibre board and a special acrylic plaster. Emphasis is placed on material and texture and the technique is a continuation of producing objects that Zaman developed as a student.

Zaman is most intrigued by the materiality of plaster, it provides a sense of freedom in loosing control of the final outcome. While there is extreme precision in the digital fabrication techniques to create the armature the addition of plaster to the process provides an organic element of expression and randomness.

Biography

Zaman's artistic practice focuses on his interest in furniture and objects that are in the private and public space. Based on his own upbringing and experiences, he explores how our surroundings affect us socially and culturally. With an education in advertising, furniture crafts and design, Zaman's interest in materials, production techniques and visual languages is visible in his work. Through his work, he deals with topics such as function, form, identity and visual culture. Currently works and lives in Oslo, Norway.
