## Biography

Charles-Edouard Jeanneret Swiss architect who was one of the protagonists of international architectural renaissance of the twentieth century. Besides being one of the greatest innovators of modern architecture, it was a tireless cultural agitator, work that exerted with passion throughout his life. With his writings he gained a deserved reputation as polemicist and provided a real flow of innovative ideas that have made his work a decisive influence on later architecture.

Le Corbusier's utopia was to create a new urban reality, a city that was a synthesis between nature and technology development. For this purpose, architecture and urbanism they should be fully integrated.
