Concept

This rare table lamp is designed by Swedish designer Einar Bäckström in his workshop in Malmö, which he founded in 1918. This table lamp is a delightfully distinctive model and executed in the finest materials. The base, stem and triangular shaped shade are made of brushed brass. A stunning combination in materials is realized by the use of cognac leather that is strapped around the stem. This lamp has a convincing Scandinavian appearance. From the clean lines and the brass structure to the soft edges and intuitive functionality, this model is timelessly stylish.
