Biography

New Zealand born Sabine Marcelis graduated from the Design Academy Eindhoven in 2011. Since then she has been operating Studio Sabine Marcelis, working within the fields of product, installation and spatial design with a strong focus on materiality. Marcelis applies a strong aesthetic point of view to her work and this method allows her to intervene in the manufacturing process, using material research and experimentation to achieve new and surprising visual effects for projects. She sees her designs as experiences, striving to create a dialogue between the object and user, and the aesthetic core of her work is informed by the function of the selected materials.
