### Measurements

78 cm x 79 cm x 80h cm

## Concept

Continuing to Play with the narrative of the well know the game of dominoes, notably played by the Caribbean community in the designer's home-town of Nottingham, Collins' most recent addition to the dominoes series, Boneyard has been produced exclusively for Side Gallery. The 12 limbs of the chair ( 8 legs and 4 arms), mirror the best domino in the game, as well as referencing the repetition of the dominoes in the 'boneyard', (the name given to the space or surface where the dominoes sit on the table). From a functional perspective, the physical and visual weight of the chair is designed to root the sitter to the earth, to make them feel grounded, encouraging a nonchalant position. The short armrests encourage a leant back, relaxed, confident and broad-chested posture. The chair is handcrafted in solid oak. Boneyard will be on show at Side Gallery, Barcelona in 2023.
