Biography

Aneta Regel (1976) graduated from the Royal College in 2006. Since then, she has positioned herself as a rare talent. She looks not for function but to capture the forms and rhythms of nature that evoke to the landscapes of her native northern Poland. She uses clay as her medium to create abstract sculptures usually unglazed but partly coloured to create a dramatic effect each piece is repeatedly dried and re-fired resulting on a constant metamorphosis. In addition, she often uses volcanic rock, granite or basalt as the body of her pieces giving them structure, texture and great visual complexity. Her work is somehow eccentric and refreshing, leaving space for the viewer's imagination.
