Seat Height: 33 cm / 13 in

About
Dating from 1953, the Akita Mokko Armchair reflects the evolution of post-war Japanese furniture, combining traditional woodworking techniques with mid-century modern design. Its distinctive fan-shaped backrest, curved wooden frame and slender spindles create an open, sculptural silhouette, while the upholstered seat and tapered legs balance comfort, lightness and structural clarity.

About Akita Mokko
Akita Mokko is a Japanese furniture manufacturer known for its expertise in bentwood and traditional woodworking techniques. Throughout the twentieth century, the company combined craftsmanship with modern production methods, creating furniture characterized by fluid curves, lightweight structures and functional simplicity. Its work reflects the dialogue between Japanese craftsmanship and international modernist design.
